

Bates' Visual Guide to Physical Examination

Head-to-Toe and Systems-Based Physical Assessment and Clinical Reasoning Skills Videos

- End-to-end physical assessment learning videos
- Interactive OSCE-style modules for clinical reasoning
- Ideal for patient encounter and board exam preparation
- Over 8 hours of videos with clear narration and captions
- Choose the complete set or by module type (Physical Examination or OSCEs)
- Available online and optimized for mobile devices

Bates' Visual Guide to Physical Examination delivers new clinical skills videos featuring head-to-toe and systems-based physical examination techniques, as well as OSCE clinical reasoning modules.

Based on *Bates' Guide to Physical Examination and History Taking*, this online guide maintains the evidence-based origins of the text and provides careful attention to clinical accuracy, and to the range of patient types profiled in the series.

In addition to practicing clinicians, this resource is ideal for any institution's assessment or clinical medicine courses within medical, nursing, physician assistant, physical or occupational therapy and pharmacy programs.

Why Bates' Visual Guide to Physical Examination?

- Support teaching and learning objectives with hours of narrated and closed-captioned videos
- Prepare students for the patient encounter and board exams
- Allow students independent, frequent viewing and testing of their clinical reasoning skills
- Provide a resource for practitioners to review and refresh their understanding of examination techniques
- Create direct paths to videos from library catalog or course syllabus; download PDF transcripts for use in teaching guides

| 7. Head, Eyes, and Ears | 17. Nervous System: Cranial Nerves and Motor System |
| 8. Nose, Mouth, and Neck | 18. Nervous System: Sensory System and Reflexes |
| 9. Thorax and Lungs | |
| 10. Cardiovascular System | |

OSCE Clinical Skills Videos

These videos are designed to help prepare students for Objective Structured Clinical Examinations (OSCEs) by testing their clinical reasoning skills covering typical/common complaints, including: Chest Pain, Cough, Abdominal Pain, Knee Pain and Sore Throat.

Each video provides a clinical encounter observation -- giving students the opportunity to develop an assessment, or differential diagnosis, and provide an appropriate diagnostic workup.
