

CHINA ACADEMIC CONFERENCE PROCEEDINGS DATABASE (CACP)
中國學術會議論文數據庫

DESCRIPTION: China Academic Conference Proceedings Database (CACP) provides academic papers from about 35,000 academic conferences held in China, covering all subjects from arts, finance to medical and technology. The conferences were mostly held by the first class academic associations and universities in China such as Chinese Medical Association, China Electronic Association, Peking University, etc.

This database is widely used by hundreds of research institutes, public libraries and university libraries in China, as an indispensable resource of research work.

VERSION AVAILABLE: Chinese interface and content (simplified Chinese full text)

FULL TEXT FORMAT: PDF files

SEARCH FUNCTIONS AVAILABLE: Search functions are available by author name, title, school name, keywords, abstract, year, etc.

QUANTITY: over 2,700,000 full text papers from over 35,000 conferences
